About Us

At Sparkle Toys, we're dedicated to providing the widest available selection of educational toys. We believe that learning should be fun, and that playing with toys helps us learn faster. We also believe that the environment is just as important as education and we make it a point to highlight products that are eco-friendly. Just look for products tagged with a green leaf.

Specifications

This Frontier Logs construction set from Ideal® features 160 durable and colorful logs that make beautiful cabins, houses, or whatever your imagination can create! The classically styled hardwood, interlocking, round logs are guaranteed to stimulate and challenge the imagination of every child. These logs are stained with vegetable-based food coloring and sealed with paraffin wax, making them a safe, paint-free alternative for kids. Construction toys foster basic spatial relationship, coordination, visualization, and building skills. A great gift for kids ages 4 and up! This set includes: Storage canister, Basic builder manual, Combination of 160 logs and building pieces

Log set equals happy kid

January 7, 2017

I am so so sorry , I thought I did my review !! My apologies this toy was the bomb the pieces fit perfectly and snug no imperfections just Good ole fun my child loves this set the wood pieces didn't have any ridges the wood was well done it was a great toy to try gives a child a idea how to work together and build things Thank you !!

Pretty good product!

November 10, 2016

My daughter loves building "houses" with blocks, so I figured she would love these logs. She really does enjoy this product thoroughly. I would have given it 5 stars but I have one complaint. There aren't enough pieces to build all of the structures at the same time. You can build them one at a time, but not all 4 of them. I was following the instructions which have the structures grouped together and i ran out of pieces and had to pick one to take apart in order to continue with the other ones.

Other than that, this is a great product and I would recommend it to parents who have children that like to play with blocks and build things!

My daughter and I got to try this for free in exchange for an honest review! It did not influence my opinion of this product.

Pretty Average

April 27, 2016

This set is pretty much what you would expect. Nothing super exciting but it all functions as it should. There are just enough pieces to build something substantial.
